MONIJAY, HOVE'Y ... R. 18, 1887. ANOTHER AND A GREATER WHIG TRIUMPH!!

THE ELECTION IN NEW YORK. OUR FRIENDS THERE BUST STRAIN FURRY NERVE IF THE WHIGH CARRY NEW YORK, IT IS USELESS TO CONTERS FARTHER " [Van Buren's declaration to C. C Cambreleng.

VAN BUREN'S FACE IS SEALED! THE WHITE HAVE ACHIEVED A GLOBIOUS distribution per capita? (2) TRIUMPH IN NEW YORK THE LOCO FOCOS ARE DEFECTED IN THEIR STRONGEST PLACES THE Burine State is vobly regenerated "NEV-EK SINCE THE BATTLE: OF PHARSA. BIA WAS THERE SUCH A VICTORY T THE RETURNS.

The Whige have thried New York City by an average majority of not loss than mentystoon hundred notes! Some accounts state the majority as high as THREE THOUSAND " At larger number of vuter were cast than ever before more than 36,000! The Whig gain from the President. Cl election 13- not fer from FIVE TROUBAND in New York City !!! Returns have been received from the River Counties these obvenies were the hot-bede lof Yare Bu renera. Such were the previous Loco Foco majorities in the River Districts, that the Whige did not dare anticipate success yet they are exeru mare victorious ' These Counties last year elected to the Assembly, seponteen Van Buren men, and seven Whigs This year they have elected TWENTY FOUR Whigs, and not a solitary Tory ' ' Every return which had been received at our latest accounts, showed a Whig and weighty as are the whole of these charges, gain. As the Whigs have always been in the there is not one of them, we believe which is majority in the Western palt of the State. there can be no doubt that Mn VAN BUREN's OWN STATE HAS GONE AGAINST BIN and thus his political death warrant is signed and sealed, and nothing remains but that Execution be done woon him by the " DEMOURACY OF NUM- and obtained possession of the government, BERS."

We learn by steamboat that 100 guns were fired in Boston at 9 o'clock P M. Friday, for the victory in the City. In New York all was mjoicing The Whigs of Maine showed their friends in New York what things could be done. and they are now shewing us that "some things שמה be done as well others."

The Conging and Enquirer ergs

The great contest is over she cause of Principles has triumphed the majesty of the laws has been vindicated the People have rallied in defence of the Constitution and Institutions of the country; and Van Burenism and all its infunous silies are prostrated torayer.

"Bajoice with us, Whigs of the Union ! in our rescue from the bondage under which we have so long groaned. We cannot but feel that it is a cathe for universal jubilee. The eyes of the whole country have been turned towards this city. Mr Von Buren regarded it as his last hoje. Defeat here he knows is the death of his administration.

His partisans so consider it from Maine to Louisians The ruffian cynasty which has so long lorded it over the land, is prostrate for ever. It must resign the spit sceptre which it so long brandished as a scourge and curse over the country Better days are in prospect for us all days of honest and salutary legislation of honorable rulers and wise councils of a sound Currency, a prosperous Commerce, and the successful prosecution of humble industry and "elevated enterpris:"*

The "Journal of Commerce" says "We verily believe the Whige have carried the agents abroad was considered ground for Biste."

NEW YORK, Nov 9, 1837. Massis Marchant & Smith Gentlemen .. The days of unstrule and despotism are numbered the Whige have carried the City, by a majoraty of about 3000 and have achieved a noble victory, over Loco Focoism, Van Burenism, Fanny Wrightism, Slam, Bang, Ming and all other is. w Retuens have been received, sufficient to make it certain that a majority of the House of Assembly will be Whig Lhus is Van Bu wa rouled in his own Style, County and Lown "Verily my sufferings is intolerable" nothing now with ... we him but calling another special sea, ion of Congress on account of "great and heighty matt ... We commend to the Editor of the " Age ' the following extract from the speech of Senator Talimadge, of New York, delivered in Congress, the last session. He may possibly un deretand from this, what the mproposition was which was so bitterly denounced by the Globe in 1834. At this testimony proceeds from one of his own political hindred, we presume it will not be impeached:

where one cannot now reach it The party was never more unanimous on any accasion than thus their abhorrence of the scheme was universal, so powerful were the arguments against it, both in and out of Congress, by the Republican Representatives, and the Republican Press, that it received no favor in any quarter. Even the opposition, notwithstanding they were against the state banks as depositories of the public money, could not be brought to the support of this measure, although it was introduced and urged by one of their own number. So mischievings in its ten dency, so presound in principle, did they deem it, that they united with the friends of the administration to defeat it. But what do we now behold? Whilst they, as a party, are still against the measure we, as the friends of the ad ministration, are called upon to support the SAME PROPOSITION, now, which we as friends of the administration, put down then put down, did | say which we decounced as "DISURGANIZING AND REVUILTIONARY," and as exposing the public treasure to be 'to BE PLCK' DERED BY AN HINDRED-HANDS WHERE ONE CANNOT NOW REACH IT ' The objections to it then were inherent in the system and being so, no state of things has since occurred or can hereafter occur, which can remove those objections Still, we are now asked to change our ground, and to adopt a proposition as a matter f expediency, which received our decided disapprobition, at that time, as a maiter of principle No question was ever better settled on principle than this, and no state of things can make that expedient now, which was wrong in principle then

The way they do things in Mr Van Burens Congress We extract the following from Mr. Fletcher state speech in Faneutl Hall, It will he recollected that he was a member of the sommiliee of Ways and Means .

During the Session, the business projects by on which the flouse was called to act came almost entirely from the Committee of Ways and Means There are nine members of that committee, only two of whom are understood to be opposed to the policy of the administration suppose you would like to know the manner in which the business was arranged for the House I will tell you the ways, the means you will all see in due time. You will doubtless auppose that this Committee of Ways and Means has some duty to do ,- three ways to devise, some means to find out, some plans to originate and in iture for the action of the house.- The Committee, you imagine, look over the message, see what is recommended to be done for the benefit of the country, consult together as to the best measures, and lay the result of their deliberations before the House. Is this your idea, Mr. President? Is this what you think, fellow eifizens? If it is, I am sorry to inform you, that you labor under a very great inistake. I onen entertained the same ideas, but I soon found my error. No such a thing, air no such a thing. The Chairman of the Committee steps up to the White House, and there receives from the President or Secretary of the Tressury, such hills as they wish to have passed by the House The chartman put the bill in his poplar t tiken them to the committee, without any examina tion, the majority-of the committee-approve them, the minurity can do nothing, the bilis are present to the House, and received as the doings of the committee

Laver to you that every unportant bill passed by the frouse, came to the frouse ready druwn, from the Executive. The Representatives are mere machines. Every measure is an Execulive measure. I me in by the Executive, the President, and the heads of departments, the cabinet. They originate every thing, put everything in the procise shape they wish, word for word, letter for letter, comma for comma, and the executive majority in the House pass caen bill both with a without alteration, and so for as depends upon them without. Debite, just as it conces from the rimisters at the White 1 จะแดน

I had heard of Executive Dictation of Ex ecutive using ation of Executive patronage I thought that I had seen something of it but till I visited the seat of government I had no conception of its true nature, of its true ext ni I solemnly warn you against this terriole concentration of power in the hands of the Executive! I see in it most alarming danger threatening, fearfully threatening the liberties of the country' Executive power has become a very Collessus, which bestrides the land, from one end to the other, and, fellow-citizens if we do not overthrow it, most assuredly it will crush us; and, in crushing us, in crushing the people, it will crush liberty it wil crush the and sold as cheap as at any other estell himen constitution '

A resolution was introduced into the House, from the Committee of Ways and Means, de claring that it is inexpedient to charter a Nation al Bank You may feel some interest to know how that resolution was got up I will tell you You will recollect that there were only two apposition members on the committee. The majordy repuld do outling for the people, and the numerity could do nothing, except to report the doings of their masters in the commitand this, at least, 1, for one, am resolved to do Very many petitions, from almost all the States, were sent into Congress for the establishment | Z Bradley's plan, and is the same deeded by la of a National Bink These petitions, as they were presented, by a mutual understanding were referred to the Committee of Ways and Means; and suffired to be on the table till the

whole should come in , when, as we supposed they were to be taken up and considered. So the matter stood, when, on the last day but one on which that committee sat, the chairman, without preface or explanation, introduced the above resolution. It was opposed by one opposition member the other being absent and the chairman was asked what had become of the petitions? They yet liy on the table, but the majority passed the resolution, without opening or leading one of them. The resolution was sent in, and by the help of the previous question, was forced through the House doubt can be entertained that the resolution came down from the Executive in the precise form in which it massed. Here was a great and most manufest outrage on the liberties of the citizens. At least, they have a right to petition, if they have no other; and yet, in a time of the greatest anxiety, when it was of the most vital importance that the views of the people should be communicated to their representatives here was a successful attempt on the part of the Executive to cut off this intercourse, to prevent the voice of the people from being heard; to erect a barrier between the people and their constituents
